INSTALLATIONS FOR THE FOOD
& BEVERAGE INDUSTRY

DAIRY

CAPABILITY STATEMENT

FABRICATION / INSTALLATION
UPGRADES / RELOCATION

DAIRY SPECIALISTS

Specialists in aseptic welding, TFG Group is your dedicated installation partner in the dairy industry. Our ability to combine complex mechanical installations with minimal plant downtime will ensure your project stays on schedule. With extensive experience in the dairy industry, TFG offer value for money project management solutions backed by a team of experienced welders, fitters and dedicated onsite safety personnel.

QUALITY ASSURANCE

Due to potentially harmful contamination in milk products, the highest level of aseptic, food grade orbital welding techniques are employed to ensure the quality of the end product. TFG offer orbital welding, purge tacked seams and borescope testing.

MECHANICAL INSTALLATIONS

TFG's specialised team of fabricators, welders and pipe fitters offer;

- Aseptic Welding
- Bulk Chemical Handling Facilities
 - Filling Lines
- Filtration Systems
 - Pasteurisers
- Platforms and Pipe Bridges
 - Spray Dryers
 - Storage Tanks
 - Tanker Bays
