

ABOUT FOODLINE

A division of TFG Group, Foodline Projects is committed to offering specialised mechanical installations for the food, beverage, brewing, dairy, pharmaceutical and industrial industries. Providing dedicated project solutions since 1995, Foodline has the experience and wealth of knowledge to successfully deliver turnkey installations to a range of national clients.

Foodline is your dedicated project partner, offering value for money project management solutions incorporating engineering, design, drafting, site management and project administration with experienced tradesmen and dedicated onsite safety officers. Our focus is on site safety and efficient program delivery achieving maximum plant efficiency with minimal downtime.

Our highly qualified and versatile team of welders, boilermakers, sheet metal fabricators, fitters and tradesmen specialise in process pipework, sanitary food grade welding and high pressure installations.

Accredited to ISO 9001 Quality Management System, Foodline Projects strives to offer industry best practice solutions to meet and exceed client expectations.

SPECIALISED MECHANICAL INSTALLATIONS FOR THE FOOD AND BEVERAGE INDUSTRY

FOODLINE CAPABILITIES

SUPERIOR EFFICIENCY & COMPETITIVE SOLUTIONS

Foodline Projects are your mechanical installation project partners, specialising in food and beverage project installations around Australia. We listen to our clients and tailor all installation project solutions to meet their requirements, taking pride in offering industry best practice in safety, quality and environmental management systems.

CAPABILITIES

- Access Platforms
- Complex Pipe Spooling
- Contract Management
- Equipment Installations
- Hydrostatic Testing
- Internal Passivation
- Multidisciplinary Engineering, Design and Support
- Nationwide Project Management
- Non-Destructive Testing
- Orbital Welding
- Passivation
- Pipe & Tube Fabrication
- Polishing
- Pressure Vessels
- Project Scheduling
- Purge Welding
- Quality Assurance and Full Traceability & Documentation
- Specialised Stainless Steel Installations
- Stainless Steel Welding
- Tank Fabrication
- Transportable Skids
- Turnkey Projects
- Valve Manifold Fabrication

QUALIFICATIONS

ISO 9001

Members and accredited fabricators of the Australian Stainless Steel Development Association

Members of the Australian Steel Institute

Qualified in welding Stainless Steel, Carbon and Exotic Alloy Materials

Weld procedures and qualifications including GTAW and are in line with Australian Standards including AS3992, AS4041

SECTORS

Food Production

Beverages

Brewing

Quality, Safety & Environment

QUALITY

TFG Group is accredited to ISO 9001 Quality Management System. This certification has allowed TFG to develop a quality system that follows world best practice and positions TFG as an industry leader in Quality Management.

The implementation of an ISO 9001 system ensures quality measures are in place for all operations and procedures to achieve the highest standard of work for our clients. Regular auditing of this system ensures we are continually improving our processes in order to maintain high standards throughout all of our activities.

SAFETY

The safety of our staff and the public is TFG's top priority. Our systematic approach to employee safety is highlighted through procedures, policies and training which has helped to create an optimal OH&S environment. All of our practices are designed with a safety first attitude and helps to ensure the provision of safe and reliable services to our clients.

ENVIRONMENT

TFG Group is committed to reducing environmental impacts throughout all activities. A range of environmental impact procedures are communicated to staff as well as forming part of our induction process. TFG is striving to become carbon neutral, offsetting all carbon produced as a result of our work.

ASSDA

TFG Group is proud to be a member and accredited fabricator of the Australian Stainless Steel Development Association (ASSDA), a non-profit industry group that has been developing a strong and vibrant stainless steel industry in Australia since 1992.

TFG Group works closely with ASSDA and its members to develop industry initiatives to increase stainless steel consumption and enhance market growth throughout Australia.
